- 3.1. **Definitions Related to the Provision of Covered Services.** Provider shall follow the applicable State Contract's provisions for the coverage of Covered Services. Provider's decisions affecting the delivery of acute or chronic care services to Customers shall be made on an individualized basis and in accordance with the following definitions:
 - i) **Emergency Medical Condition:** A medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson who possesses an average knowledge of health and medicine could reasonably expect the absence of immediate medical attention to result in: (a) placing the health of the individual (or with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy; (b) serious impairment to bodily functions; or (c) serious dysfunction of any bodily organ or part.

 - iii) **Medically Necessary:** A service or benefit that is compensable under the State Programs

- c) The service or benefit will assist the Customer to achieve or maintain maximum functional capacity in performing daily activities, taking into account both the functional capacity of the Customer and those functional capacities that are appropriate for Customers of the same age.

Determination of Medical Necessity shall be made by qualified and trained providers, exercising prudent clinical judgment, based on medical information provided by the Customer, the Customer's family/caretaker and the PCP, as well as any other providers, programs or agencies that have evaluated the Customer. Determination of Medical Necessity for Covered Services, whether made on a prior authorization, concurrent review, retrospective review, or exception basis, must be documented in writing.

The term also includes situations where a person's discharge from a hospital will be delayed until services are approved or a person's ability to avoid hospitalization depends upon prompt approval of services.

3.2. Medicaid or CHIP Participation. Provider must be enrolled with the State as a Medicaid or CHIP provider, as applicable to participate in United's Medicaid or CHIP network. Furthermore, Provider shall keep its information up-to-date within the State's PROMISE™ system (or any other system as required by the State). - 3.7. Accessibility Standards.** Provider must provide for timely access to Customer appointments in accordance with the appointment availability requirements established by United pursuant to the requirements of the State Contracts, including without limitation, appointments for preventative care, urgent care, routine sick care, and well care.

If the PCP is unable to conduct the necessary EPSDT screens, the PCP must arrange to have the necessary EPSDT screens conducted by another Participating Provider and ensure that all relevant medical information, including the results of the EPSDT screens, is incorporated into the Customer's PCP medical record. PCPs must report Encounter Data associated with EPSDT screens to United, using a format approved by DHS, within ninety (90) days from the date of service.
 - ii) PCPs who serve Customers under the age of twenty-one (21) years must contact those Customers identified by United in quarterly Encounter lists as not complying with EPSDT periodicity and immunization schedules for children and shall identify to United any such Customers who have not come into compliance with the EPSDT periodicity and immunization schedules within one (1) month of notification to the PCP by United of noncompliance. PCPs shall document the reasons for noncompliance, where possible, and efforts made to bring the Customer's care into compliance with the EPSDT standards.
 - iii) PCPs shall contact: (a) new Customers identified by United in quarterly Encounter lists who have not had an Encounter during the first six (6) months of enrollment with United or who have not complied with the scheduling requirements under the State Contract; and (b) all Customers who have not had an Encounter during the previous twelve (12) months or within the time frames required under the State Contract.
- 3.10. Health Care Facilities and Ambulatory Surgical Centers.** Providers that are health care facilities and ambulatory surgical facilities shall develop and implement, in accordance with P.L. 154, No. 13 known as the Medical Care Availability and Reduction of Error (Mcare) Act, an internal infection control plan that is established for the purpose of improving the health and safety of patients and health care workers and includes effective measures for the detection, control and

prevention of health care-associated infections.

Continuity of Care.** Except as provided in this section, if United terminates the Agreement, Provider shall continue to furnish Covered Services to any Customer who, at the Customer's option, desires to continue an ongoing course of treatment with Provider for a transitional period of up to sixty (60) days from the date the Customer was notified by United of the Agreement's termination or pending termination. United, in consultation with Provider and a Customer, may extend the transitional period if clinically appropriate. In the case of a Customer in the second or third trimester of pregnancy at the time of notice of the termination, the transitional period shall extend through post-partum care related to delivery. Any Covered Services provided during the transitional period shall be covered by United under the same terms and conditions as applicable to Participating Providers. Notwithstanding the foregoing, if United terminates the Agreement for cause, including but not limited to breach of contract, fraud, criminal activity or posing a danger to Customers or the health, safety or welfare of the public as determined by United, United shall not be responsible for any Covered Services provided to a Customer by Provider following the effective date of termination. Nothing in this section shall require United to provide health services that are not otherwise covered as Covered Services under the terms and conditions of the Agreement. If a Provider who has a capitated arrangement with United terminates the Agreement for any reason, such Provider shall provide services to Customers assigned to the Provider through the end of the month in which the termination becomes effective.
- 3.12. Continuity of Care, Capitation or Premium Paid.** In the event of United's insolvency or other cessation of operations, Provider shall continue to provide benefits to Customers, including Customers in an inpatient setting, through the period for which the applicable capitation or premium has been paid to United by the State.
- 3.13. Hold Harmless.** In no event, including but not limited to nonpayment by United, insolvency of United or Provider or breach of the Agreement, shall Provider, or Provider's facility-based physician groups, bill, charge, collect a deposit from, seek compensation, remuneration or reimbursement from, or have any recourse against Customers or other persons or entities acting on behalf of the Customer, other than United, for services provided under the Agreement. A Customer is not liable to Provider for any services for which United is liable or for United's debts in the event of insolvency. This provision does not prohibit Provider from collecting any allowable cost-sharing (e.g., co-payments, deductibles, and/or co-insurance) in accordance with the terms of the Customer's benefit plan and the applicable State Contract. Provider shall also be prohibited from charging Customers for missed appointments if such practice is prohibited under the State Contract or applicable law.

This hold harmless provision shall survive termination of the Agreement for any reason, including breach due to insolvency, and shall be construed for the benefit of Customers. This hold harmless provision shall also supersede any written or oral agreement currently in existence or entered into at a later date between Provider and a Customer, or person(s) acting on the Customer's behalf. No modification, addition, or deletion to the provisions of this section shall become effective until approved by PID'S BMC and DHS.

- 3.14. Encounter Data for all services must be submitted within the time frames established by United pursuant to the State Contracts, regardless of whether

reimbursement for such services is made by United either directly or indirectly through capitation. Provider shall certify the accuracy, completeness, and truthfulness of all claims and data submitted. Data must be provided at the frequency and level of detail specified by United or the State. By submitting data to United, Provider represents and attests to United and the State that the data is accurate, complete and truthful, and upon United's request Provider shall certify in writing, that the data is accurate, complete, and truthful, based on Provider's best knowledge, information and belief.

- 3.15. Grievance; Complaints.** Provider agrees to comply with United's policies and procedures for Customer complaints and grievances, including but not limited to any reporting requirements established by United pursuant to the requirements of the applicable State Contract. Provider shall provide physical access, reasonable accommodations, and accessible equipment for Customers with physical or mental disabilities.

Unless United otherwise requests assistance from Provider, United will be responsible for third party collections in accordance with the terms of the applicable State Contract.

5.4. Scope of License; Certification. United shall not discriminate with respect to participation, reimbursement, or indemnification of a provider who is acting within the scope of the provider's license or certification under applicable state law, solely on the basis of such license or certification. This provision shall not be construed to prohibit United from limiting provider participation to the extent necessary to meet the needs of Customers or from establishing any measure designed to maintain quality and control cost consistent with these responsibilities.

5.5. Termination, Revocation and Sanctions.
